MMIS Reflects Rates for H1N1 Vaccine Administration

The rates for Healthcare Common Procedure Coding System (HCPCS) code G9141 (Influenza A (H1N1) immunization administration, includes the physician counseling the patient/family) are now reflected in the Medicaid Management Information System (MMIS). The [attached document](#) shows code G9141 reimbursement rates.

Claims for code G9141 submitted and denied for procedure code not on file and with dates of service on or after Sept. 1, 2009, will be reprocessed. Providers will be notified when the affected claims are reprocessed.

The vaccine (HCPCS code G9142) is not reimbursed by Medicaid since the federal government is providing it free of charge to health care providers. Current Procedural Terminology (CPT) codes 90470 and 90663 are not recognized by Nevada Medicaid for the H1N1 administration and vaccine. Only code G9141 is reimbursable for H1N1 vaccine administration.
